

## 96-well microplates BRANDplates® with F-bottom

Polystyrene, untreated or optimized for immunological and cell culture applications.

Cat.No.	Bottom	Surface	Color	Type	Sterile	max. Vol.	Lid
7816 02	F	pureGrade™	transparent	standard	-	350 µl	-
7816 05	F	pureGrade™	white	standard	-	350 µl	-
7816 08	F	pureGrade™	black	standard	-	350 µl	-
7816 62	F	pureGrade™ S	transparent	standard	+	350 µl	+
7816 65	F	pureGrade™ S	white	standard	+	350 µl	+
7816 68	F	pureGrade™ S	black	standard	+	350 µl	+
7817 22	F	immunoGrade™	transparent	standard	-	350 µl	-
7817 82	F	hydroGrade™	transparent	standard	-	350 µl	-
7818 42	F	lipoGrade™	transparent	standard	-	350 µl	-
7819 62	F	cellGrade™	transparent	standard	+	350 µl	+
7819 65	F	cellGrade™	white	standard	+	350 µl	+
7819 68	F	cellGrade™	black	standard	+	350 µl	+
7820 22	F	cellGrade™ plus	transparent	standard	+	350 µl	+
7820 25	F	cellGrade™ plus	white	standard	+	350 µl	+
7820 28	F	cellGrade™ plus	black	standard	+	350 µl	+
7820 82	F	cellGrade™ premium	transparent	standard	+	350 µl	+
7820 85	F	cellGrade™ premium	white	standard	+	350 µl	+
7820 88	F	cellGrade™ premium	black	standard	+	350 µl	+
7819 02	F	inertGrade™	transparent	standard	+	350 µl	+
7819 05	F	inertGrade™	white	standard	+	350 µl	+
7819 08	F	inertGrade™	black	standard	+	350 µl	+

- untreated
- immunological
- cell culture

All BRANDplates® microplates are manufactured according to the requirements of the ANSI-/SLAS-standards 1 to 4 - 2004. This ensures the compatibility of the BRANDplates® when performing automated processes. Subject to technical modification without notice. Errors excepted.
